Candidate Statement

## Goals

---

- Connect the board with the owners so it can act in their best interest as a group. I pledge to have at least monthly conversations with owners about their values and vision for the future of CityWalk.
- Provide board accountability to the owners. As the board steers CityWalk's future, I pledge to communicate how the board reaches its decisions and how those decisions align with the owner's best interest overall.
- Maintain a strong relationship with First Residential Service. I pledge to help the board both empower First Residential Service to do the work it is uniquely qualified to do on our behalf, and to receive evidence First Residential Service is staying within appropriate limits of prudence and ethics as they do that work.
